Thursday, September 30 at 7 p.m.

Broadcast online – Facebook Live

We hear the acronym PTSD on a regular basis – but what does this psychological condition really entail? Do symptoms appear immediately following a traumatic event, or do they begin years later? What is considered a traumatic event, and how prevalent is this condition? We're here to help you understand symptoms, connect you or a loved one with helpful resources, and facilitate a deeper understanding of and empathy for this complex and devastating disorder. Joining us for this honest and illuminating conversation will be a representative from our local Veterans Affairs organization, a Trauma Program Manager from Stark County's Child & Adolescent Behavioral Health organization, and individuals living and coping with PTSD.
